The Board of Trustees
Guam Memorial Hospital Authority

Dear Members of the Board of Trustees:

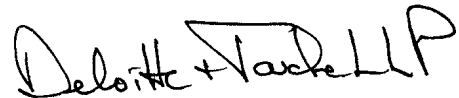

We have performed an audit of the financial statements of the Guam Memorial Hospital Authority (the Authority) as of and for the year ended September 30, 2017, in accordance with auditing standards generally accepted in the United States of America ("generally accepted auditing standards") and have issued our report thereon dated June 30, 2018.

We have prepared the following comments to assist you in fulfilling your obligation to oversee the financial reporting and disclosure process for which management of the Authority is responsible.

This report is intended solely for the information and use of the Board of Trustees, management, the Office of the Public Accountability of Guam and others within the organization and is not intended to be and should not be used by anyone other than these specified parties. However, this report is also a matter of public record

We wish to thank the staff and management of the Authority for their cooperation and assistance during the course of this engagement.

Very truly yours,

OUR RESPONSIBILITY UNDER GENERALLY ACCEPTED AUDITING STANDARDS AND GENERALLY ACCEPTED GOVERNMENT AUDITING STANDARDS

Our responsibility under generally accepted auditing standards, the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, has been described in our engagement letter dated July 24, 2017. As described in that letter, the objective of a financial statement audit conducted in accordance with the aforementioned standards is:

- To express an opinion on the fairness of the Authority's financial statements for the year ended September 30, 2017 (the "financial statements"), in accordance with accounting principles generally accepted in the United States of America ("generally accepted accounting principles") in all material respects, and to perform specified procedures on the required supplementary information for the year ended September 30, 2017;
- To express an opinion on whether the supplementary information that accompanies the financial statements, including the schedule of expenditures of federal awards, is fairly stated, in all material respects, in relation to the financial statements taken as a whole;
- To report on the Authority's internal control over financial reporting and on its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters for the year ended September 30, 2017, based on an audit of financial statements performed in accordance with standards applicable to financial audits contained in generally accepted government auditing standards; and
- To report on the Authority's compliance with requirements applicable to each major program and on internal control over compliance in accordance with the Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance).

Our responsibilities under generally accepted auditing standards include forming and expressing an opinion about whether the financial statements that have been prepared with the oversight of management and the Board of Trustees are presented fairly, in all material respects, in conformity with generally accepted accounting principles. The audit of the financial statements does not relieve management or the Board of Trustees of their responsibilities.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on our judgment, including the assessment of the risks of material misstatement of the financial statements, whether caused by fraud or error. In making those risk assessments, we considered internal control over financial reporting relevant to the Authority's preparation and fair presentation of the financial statements in order to design audit procedures that were appropriate in the circumstances but not for the purpose of expressing an opinion on the effectiveness of the Authority's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the Authority's internal control over financial reporting. Our consideration of internal control over financial reporting was not designed to identify all deficiencies in internal control over financial reporting that might be significant deficiencies or material weaknesses.

We also considered the Authority's internal control over compliance with requirements that could have a direct and material effect on a major federal program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with the Uniform Guidance. Our audit does not, however, provide a legal determination of the Authority's compliance with those requirements.

ACCOUNTING ESTIMATES

Accounting estimates are an integral part of the financial statements prepared with the oversight of management and are based on management's current judgments. Those judgments are normally based on knowledge and experience about past and current events and on assumptions about future events. Significant accounting estimates reflected in the Authority's 2017 financial statements include management's estimate of the allowance for uncollectible accounts, which is determined based on management's evaluation of the collectability of current accounts and historical trends, management's estimate of the provision for inventory obsolescence, which is determined based on management's evaluation of the inventory's realizable value, and management's estimate of depreciation expense, which is based on estimated useful lives of the respective capital assets. During the year ended September 30, 2017, we are not aware of any significant changes in accounting estimates or in management's judgments relating to such estimates.

AUDIT ADJUSTMENTS AND UNCORRECTED MISSTATEMENTS

Our audit of the financial statements was designed to obtain reasonable, rather than absolute, assurance about whether the financial statements are free of material misstatement, whether caused by error or fraud. As the result of our audit work, we identified matters that resulted in audit adjustments that we believe, either individually or in the aggregate, would have a significant effect on the Authority's financial reporting process. Such proposed adjustments, listed as Appendix A to Attachment I, have been recorded in the accounting records and are reflected in the 2017 financial statements.

In addition, listed in Appendix B and Appendix C to Attachment I, are summaries of uncorrected misstatements and disclosures aggregated by us during the current engagement and pertaining to the latest period presented that were determined by management to be immaterial, both individually and in the aggregate, to the financial statements taken as a whole.

SIGNIFICANT ACCOUNTING POLICIES

The Authority's significant accounting policies are set forth in Note 2 to the Authority's 2017 financial statements. During the year ended September 30, 2017, there were no significant changes in previously adopted accounting policies or their application, except for the following pronouncements adopted by the Authority:

- GASB Statement No. 73, *Accounting and Financial Reporting for Pensions and Related Assets That Are Not Within the Scope of GASB Statement 68, and Amendments to Certain Provisions of GASB Statements 67 and 68*, which aligns the reporting requirements for pensions and pension plans not covered in GASB Statements 67 and 68 with the reporting requirements in Statement 68. The implementation of this statement had a material effect on the accompanying financial statements resulting in the restatement of GMHA's fiscal year 2016 financial statements to reflect the reporting of pension liabilities, deferred inflows of resources and deferred outflows of resources for ad hoc COLAs and supplemental annuity payments and the recognition of pension expense in accordance with the provisions of GASB Statement No. 73. The 2016 financial statements were also restated as follows due to changes in actuarial assumptions and other inputs used to determine the pension liabilities, deferred inflows of resources and deferred outflows of resources for the qualified pension plan:

- GASB Statement No. 77, *Tax Abatement Disclosures*, which requires governments that enter into tax abatement agreements to disclose certain information about the agreements.

- GASB Statement No. 80, *Blending Requirements for Certain Component Units - an amendment of GASB Statement No. 14*, which improves financial reporting by clarifying the financial statement presentation requirements for certain component units.
- GASB Statement No. 82, *Pension Issues - an amendment of GASB Statements No. 67, No. 68, and No. 73*, which addresses issues regarding (1) the presentation of payroll-related measures in required supplementary information, (2) the selection of assumptions and the treatment of deviations from the guidance in an Actuarial Standard of Practice for financial reporting purposes, and (3) the classification of payments made by employers to satisfy employee (plan member) contribution requirements.

Except for GASB Statement No. 73, the implementation of these statements did not have a material effect on GMHA's financial statements.

In June 2015, GASB issued Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions*, which replaces the requirements of Statements No. 45, *Accounting and Financial Reporting by Employers for Postemployment Benefits Other Than Pensions, as amended*, and No. 57, *OPEB Measurements by Agent Employers and Agent Multiple-Employer Plans*, and provides guidance on reporting by governments that provide OPEB to their employees and for governments that finance OPEB for employees of other governments. The provisions in Statement No. 75 are effective for fiscal years beginning after June 15, 2017. Based on an actuarial valuation dated October 1, 2015, the net OPEB obligation that GEDA will record upon implementation of Statement 75 is anticipated to be \$90,868,193 as of September 30, 2017.

SIGNIFICANT ACCOUNTING POLICIES, CONTINUED

In March 2016, GASB issued Statement No. 81, *Irrevocable Split-Interest Agreements*, which improves accounting and financial reporting for irrevocable split-interest agreements by providing recognition and measurement guidance for situations in which a government is a beneficiary of the agreement. The provisions in Statement No. 81 are effective for fiscal years beginning after December 15, 2016. Management does not believe that the implementation of this statement will have a material effect on the financial statements.

In November 2016, GASB issued Statement No. 83, *Certain Asset Retirement Obligations*, which addresses accounting and financial reporting for certain asset retirement obligations (AROs) associated with the retirement of a tangible capital asset. The provisions in Statement No. 83 are effective for fiscal years beginning after June 15, 2018. Management does not believe that the implementation of this statement will have a material effect on the financial statements.

In January 2017, GASB issued Statement No. 84, *Fiduciary Activities*, which establishes criteria for identifying fiduciary activities of all state and local governments. The provisions in Statement No. 84 are effective for fiscal years beginning after December 15, 2018. Management does not believe that the implementation of this statement will have a material effect on the financial statements.

In March 2017, GASB issued Statement No. 85, *Omnibus 2017*, which address practice issues that have been identified during implementation and application of certain GASB Statements including issues related to blending component units, goodwill, fair value measurement and application, and postemployment benefits (pensions and other postemployment benefits). The provisions in Statement No. 85 are effective for fiscal years beginning after June 15, 2017. Management does not believe that the implementation of this statement will have a material effect on the financial statements.

In May 2017, GASB issued Statement No. 86, *Certain Debt Extinguishment Issues*, which improves consistency in accounting and financial reporting for in-substance defeasance of debt. The provisions in Statement No. 86 are effective for fiscal years beginning after June 15, 2017. Management does not believe that the implementation of this statement will have a material effect on the financial statements.

In June 2017, GASB issued Statement No. 87, *Leases*, which establishes a single model for lease accounting based on the foundational principle that leases are financings of the right to use an underlying asset. The provisions in Statement No. 87 are effective for fiscal years beginning after December 15, 2019. Management has yet to determine whether the implementation of this statement will have a material effect on the financial statements.

We have evaluated the significant qualitative aspects of the Authority's accounting practices, including accounting policies, accounting estimates and financial statement disclosures and concluded that the policies are appropriate, adequately disclosed, and consistently applied by management.

OTHER INFORMATION IN THE ANNUAL REPORTS OF THE AUTHORITY

When audited financial statements are included in documents containing other information, such as Annual Reports, we will read such other information and consider whether it, or the manner of its presentation, is materially inconsistent with the information, or the manner of its presentation, in the financial statements audited by us. In the event that the Authority issues an Annual Report or other documentation that includes the audited financial statements, we will be required to read the other information in the Authority's 2017 Annual Report and will inquire as to the methods of measurement and presentation of such information. If we note a material inconsistency or if we obtain any knowledge of a material misstatement of fact in the other information, we will discuss this matter with management and, if appropriate, with the Board of Trustees.

DISAGREEMENTS WITH MANAGEMENT

We have not had any disagreements with management related to matters that are material to the Authority's 2017 financial statements.

OUR VIEWS ABOUT SIGNIFICANT MATTERS THAT WERE THE SUBJECT OF CONSULTATION WITH OTHER ACCOUNTANTS

We are not aware of any consultations that management may have had with other accountants about auditing and accounting matters during 2017.

SIGNIFICANT FINDINGS OR ISSUES DISCUSSED, OR SUBJECT OF CORRESPONDENCE, WITH MANAGEMENT PRIOR TO OUR RETENTION

Throughout the year, routine discussions were held, or were the subject of correspondence, with management regarding the application of accounting principles or auditing standards in connection with transactions that have occurred, transactions that are contemplated, or reassessment of current circumstances. In our judgment, such discussions or correspondence were not held in connection with our retention as auditors.

OTHER SIGNIFICANT FINDINGS OR ISSUES ARISING FROM THE AUDIT DISCUSSED, OR SUBJECT OF CORRESPONDENCE, WITH MANAGEMENT

Throughout the year, routine discussions were held, or were the subject of correspondence, with management. In our judgment, such discussions or correspondence did not involve significant findings or issues requiring communication to the Board of Trustees.

MANAGEMENT'S REPRESENTATIONS

We have made specific inquiries of the Authority's management about the representations embodied in the financial statements. Additionally, we have requested that management provide to us the written representations the Authority is required to provide to its independent auditors under generally accepted auditing standards. We have attached to this letter, as Attachment I, a copy of the representation letter we obtained from management.

SIGNIFICANT DIFFICULTIES ENCOUNTERED IN PERFORMING THE AUDIT

In our judgment, we received the full cooperation of the Authority's management and staff and had unrestricted access to the Authority's senior management in the performance of our audit.

CONTROL-RELATED MATTERS

We have issued a separate report to you, dated June 30, 2018, on the Authority's internal control over financial reporting and on its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters, which was based upon the audit performed in accordance with *Government Auditing Standards*. Within that report, we noted certain matters that were considered to be material weaknesses and significant deficiencies under standards established by the American Institute of Certified Public Accountants. We have also issued a separate report to you, also dated June 30, 2018, involving the Authority's compliance with requirements applicable to each major program and on internal control over compliance in accordance with the Uniform Guidance.

We have communicated to management, in separate letters also dated June 30, 2018, certain deficiencies and other matters related to the Authority's internal control over financial reporting and to the Authority's internal control over its information technology environment that we identified during our audit.

Although we have included management's written responses to our comments, such responses have not been subjected to the auditing procedures applied in our audit of the basic financial statements and, accordingly, we do not express an opinion or provide any form of assurance on the appropriateness of the responses or the effectiveness of any corrective actions described therein.

34. GMHA has satisfactory title to all owned assets, and there are no liens or encumbrances on such assets nor has any asset been pledged as collateral.
35. GMHA has complied with all aspects of contractual agreements that may have an effect on the financial statements except for instances of noncompliance included in the Schedule of Findings and Questioned Costs.
36. No department or agency of GMHA has reported a material instance of noncompliance to us except for instances of noncompliance included in the Schedule of Findings and Questioned Costs.
37. Except for matters disclosed in Note 17 to the financial statements, no events have occurred after September 30, 2017, but before June 30, 2018, the date the financial statements were available to be issued that require consideration as adjustments to or disclosures in the financial statements.
38. Regarding required supplementary information:
- a. We confirm that we are responsible for the required supplementary information.
 - b. The required supplementary information is measured and presented in accordance with GASB Codification Section 2200, *Comprehensive Annual Financial Report*.
 - c. The methods of measurement and presentation of the supplementary information have not changed from those used in the prior period.
39. Regarding supplementary information:
- a. We are responsible for the fair presentation of the supplementary information in accordance with GAAP.
 - b. We believe the supplementary information, including its form and content, is fairly presented in accordance with GAAP.
 - c. The method of measurement and presentation of the supplementary information has not changed from those used in the prior period.

40. Except for the discount rate used to calculate total pension liability, we agree with the findings of management's expert contracted by the Government of Guam Retirement Fund for the actuarial evaluation of the Government of Guam's retirement plan and have adequately considered the qualifications of management's expert in determining amounts and disclosures used in the financial statements and underlying accounting records. We did not give any instructions, nor cause any instructions to be given, to management's expert with respect to values or amounts derived in an attempt to bias his or her work, and we are not aware of any matters that have affected the independence or objectivity of management's expert. The effect of assumption difference in discount rate used is recognized in the 2017 and 2016 financial statements.

Except for the discount rate used to calculate total pension liability, we believe that the actuarial assumptions and methods used to measure pension and postretirement liabilities and costs for financial accounting purposes are appropriate in the circumstances. The effect of assumption difference in discount rate used is recognized in the 2017 and 2016 financial statements. These amounts have been appropriately recognized and displayed as assets, liabilities, deferred inflows, deferred outflows, net position and changes in net position in the financial statements in accordance with GASB Statement No. 68, *Accounting and Financial Reporting for Pensions* and GASB Statement No. 73, *Accounting and Financial Reporting for Pensions and Related Assets That Are Not Within the Scope of GASB Statement 68, and Amendments to Certain Provisions of GASB Statements 67 and 68*.

41. Arrangements with financial institutions involving compensating balances or other arrangements involving restrictions on cash balances, line of credit, or similar arrangements have been properly disclosed in the financial statements.
42. Financial instruments with significant individual or group concentration credit risk have been appropriately identified, properly recorded, and disclosed in the financial statements.
43. GMHA has disclosed whether, subsequent to September 30, 2017, any changes in internal control or other factors that might significantly affect internal control, including any corrective action taken by management with regard to significant deficiencies and material weaknesses, have occurred.
44. No evidence of fraud, possible irregularities, or dishonesty in fiscal operations of programs administered by GMHA has been discovered.
45. In 1991, Public Law 21-59 was enacted to establish a bonus system for employees of GovGuam, autonomous and semi-autonomous agencies, public corporations and other public instrumentalities of GovGuam who earn a superior performances grade. The bonus is calculated at 3.5% of the employee's base salary beginning 1991. GMHA did not pay any bonuses pursuant to the law from 1991 through 2002. In 2003, GMHA adopted a merit system similar to the GovGuam merit system. GMHA has assessed the impact of the requirements of the law for fiscal years 1991 through 2017.
46. GMHA has incurred losses from operations of \$27,696,967 and \$35,413,380 and negative cash flows from operations of \$22,309,763 and \$34,309,690 for the years ended September 30, 2017 and 2016, respectively. At September 30, 2017 and 2016, GMHA's deficiencies on delinquent and unpaid retirement contributions, including interest and penalties, with the GovGuam Retirement Fund were \$715,559 and \$1,977,709, respectively. GMHA recorded contractual adjustments and provisions for uncollectible accounts of \$62,874,694 and \$61,219,683 for the fiscal years ended September 30, 2017 and 2016, respectively.

GMHA management has taken the following actions and measures to address losses from operations and negative cash flows from operations:

- The Board approved to raise hospital fees by 5% effective April 1, 2018 and another 5% at the start of every subsequent fiscal year. Management is also reviewing and planning to increase fees for certain services such as room rates, supplies, among others, and also plans to ask the Legislature for larger fee increases.
- Management has submitted an application to rebase Medicare reimbursement rates for fiscal years 2013 through 2016.
- Management has requested for the Tax Equity and Fiscal Responsibility Act (TEFRA) adjustment covering fiscal years 2009 through 2012.
- Management has entered into contracts with a collection agency for self-pay receivables.
- Management has completed its negotiations with Guam insurers.
- Management is critically evaluating staffing patterns to ensure that quality and patient safety goals are met with "prudent" staffing.
- Management has asked the Government of Guam for financial assistance through the DPHSS programs and for alternative funding of self-pay patients.

Management believes that the continuation of the Hospital's operations is dependent upon the future payment of medical services underwritten by the Government of Guam, continued compensation by the Government of Guam for the cost of services provided under the Medicaid and Medically Indigent Program, the collection of long outstanding patient receivables, and/or improvements in operations.

47. No events have occurred subsequent to September 30, 2017 that require consideration as adjustments to or disclosures in the schedule of federal awards and related notes.
48. Receivables recorded in the financial statements represent valid claims against debtors for sales or other charges arising on or before the balance-sheet date and have been appropriately reduced to their estimated net realizable value.
49. GMHA is responsible for determining and maintaining the adequacy of the allowance for accounts receivable, as well as estimates used to determine such amounts. Management believes that allowances are adequate to absorb currently estimated bad debts in the account balances.
50. The recorded valuation allowances for accounts receivable and settlements with third parties are necessary, appropriate, and properly supported. Provision has been made for estimated retroactive adjustments by third-party payors under reimbursement agreements.
51. Provision has been made to reduce excess or obsolete inventories to their estimated net realizable value. All inventories are the property of GMHA and do not include any items consigned to it or any items billed to customers.
52. We believe that all expenditures that have been deferred to future periods are recoverable.

53. All additions to GMHA's property accounts consist of replacements or additions that are properly capitalizable.
54. There were no items of physical property contained in the property accounts of GMHA that were either (a) abandoned or (b) out of service and not regarded as either (i) standby property or equipment or (ii) property held for use only temporarily out of service.
55. We do not plan to make frequent amendments to our pension or other postretirement benefit plans.
56. We have no intention of terminating our participation in the GovGuam Retirement plans or taking any other action that could result in an effective termination or reportable event for any of the plans. We are not aware of any occurrences that could result in the termination of any of our pension plans to which we contribute. We believe that the actuarial assumptions and methods used to measure pension liabilities and costs for financial accounting purposes are appropriate in the circumstances.
57. Accrual for losses from malpractice, workers compensation, and other types of self-insured risk, including accruals for claims incurred but not reported have been properly recorded and disclosed in the financial statements.
58. During the year ended September 30, 2017, GMHA implemented the following pronouncements:
 - GASB Statement No. 73, *Accounting and Financial Reporting for Pensions and Related Assets That Are Not Within the Scope of GASB Statement 68, and Amendments to Certain Provisions of GASB Statements 67 and 68*, which aligns the reporting requirements for pensions and pension plans not covered in GASB Statements 67 and 68 with the reporting requirements in Statement 68. The implementation of this statement had a material effect on the accompanying financial statements resulting in the restatement of GMHA's fiscal year 2016 financial statements to reflect the reporting of pension liabilities, deferred inflows of resources and deferred outflows of resources for ad hoc COLAs and supplemental annuity payments and the recognition of pension expense in accordance with the provisions of GASB Statement No. 73. The 2016 financial statements were also restated as follows due to changes in actuarial assumptions and other inputs used to determine the pension liabilities, deferred inflows of resources and deferred outflows of resources for the qualified pension plan.

- GASB Statement No. 74, *Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans*, which replaces Statements No. 43, *Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans, as amended*, and No. 57, *OPEB Measurements by Agent Employers and Agent Multiple-Employer Plans*, and addresses financial reporting requirements for governments whose employees are provided with postemployment benefits other than pensions (other postemployment benefits or OPEB).
- GASB Statement No. 77, *Tax Abatement Disclosures*, which requires governments that enter into tax abatement agreements to disclose certain information about the agreements.
- GASB Statement No. 78, *Pensions Provided through Certain Multiple-Employer Defined Benefit Pension Plans*, which addresses a practice issue regarding the scope and applicability of Statement No. 68, *Accounting and Financial Reporting for Pensions*.
- GASB Statement No. 80, *Blending Requirements for Certain Component Units - an amendment of GASB Statement No. 14*, which improves financial reporting by clarifying the financial statement presentation requirements for certain component units.
- GASB Statement No. 82, *Pension Issues - an amendment of GASB Statements No. 67, No. 68, and No. 73*, which addresses issues regarding (1) the presentation of payroll-related measures in required supplementary information, (2) the selection of assumptions and the treatment of deviations from the guidance in an Actuarial Standard of Practice for financial reporting purposes, and (3) the classification of payments made by employers to satisfy employee (plan member) contribution requirements.

Except for GASB Statement No. 73, the implementation of these statements did not have a material effect on GMHA's financial statements.

59. In June 2015, GASB issued Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions*, which replaces the requirements of Statements No. 45, *Accounting and Financial Reporting by Employers for Postemployment Benefits Other Than Pensions*, as amended, and No. 57, *OPEB Measurements by Agent Employers and Agent Multiple-Employer Plans*, and provides guidance on reporting by governments that provide OPEB to their employees and for governments that finance OPEB for employees of other governments. The provisions in Statement No. 75 are effective for fiscal years beginning after June 15, 2017. Based on an actuarial valuation dated October 1, 2015, the net OPEB obligation that GEDA will record upon implementation of Statement 75 is anticipated to be \$90,868,193 as of September 30, 2017.
60. In March 2016, GASB issued Statement No. 81, *Irrevocable Split-Interest Agreements*, which improves accounting and financial reporting for irrevocable split-interest agreements by providing recognition and measurement guidance for situations in which a government is a beneficiary of the agreement. The provisions in Statement No. 81 are effective for fiscal years beginning after December 15, 2016. Management does not believe that the implementation of this statement will have a material effect on the financial statements.

61. In November 2016, GASB issued Statement No. 83, *Certain Asset Retirement Obligations*, which addresses accounting and financial reporting for certain asset retirement obligations (AROs) associated with the retirement of a tangible capital asset. The provisions in Statement No. 83 are effective for fiscal years beginning after June 15, 2018. Management does not believe that the implementation of this statement will have a material effect on the financial statements.
62. In January 2017, GASB issued Statement No. 84, *Fiduciary Activities*, which establishes criteria for identifying fiduciary activities of all state and local governments. The provisions in Statement No. 84 are effective for fiscal years beginning after December 15, 2018. Management does not believe that the implementation of this statement will have a material effect on the financial statements.
63. In March 2017, GASB issued Statement No. 85, *Omnibus 2017*, which address practice issues that have been identified during implementation and application of certain GASB Statements including issues related to blending component units, goodwill, fair value measurement and application, and postemployment benefits (pensions and other postemployment benefits). The provisions in Statement No. 85 are effective for fiscal years beginning after June 15, 2017. Management does not believe that the implementation of this statement will have a material effect on the financial statements.
64. In May 2017, GASB issued Statement No. 86, *Certain Debt Extinguishment Issues*, which improves consistency in accounting and financial reporting for in-substance defeasance of debt. The provisions in Statement No. 86 are effective for fiscal years beginning after June 15, 2017. Management does not believe that the implementation of this statement will have a material effect on the financial statements.
65. In June 2017, GASB issued Statement No. 87, *Leases*, which establishes a single model for lease accounting based on the foundational principle that leases are financings of the right to use an underlying asset. The provisions in Statement No. 87 are effective for fiscal years beginning after December 15, 2019. Management has yet to determine whether the implementation of this statement will have a material effect on the financial statements.
66. We have estimated the potential impact of failure to timely update room and board charges effective April 1, 2017. The total estimated gross patient revenues lost was approximately at \$138,000.
67. GMHA received a notice of preliminary denial of accreditation from the Joint Commission following a two-day Joint Commission survey in January 2018. In February 2018, GMHA submitted a corrective action plan to address the Joint Commission findings. Depending on the results of GMHA's appeal and sufficiency of the corrective action plans submitted, GMHA may lose its accredited status.

The loss of accreditation from The Joint Commission would not result in loss of ability to be reimbursed for the care services provided to patients admitted to the GMHA. That loss would likely be manifested in greater difficulty in recruiting and retaining needed health professionals across all physician specialties, nurses not only in critical care areas but also in other nursing specialties as well as professionals in the Ancillary or Professional Support fields such as Pharmacy, Radiology, Medical Laboratory Services, Respiratory Care, Rehabilitative Services such as Physical Therapy, Occupational Therapy, and Speech Pathology.

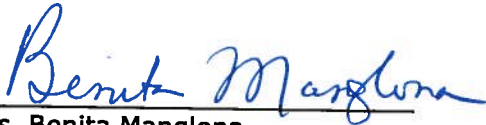

Additionally, in June 2018, GMHA received a survey report and a letter from the Centers for Medicare and Medicaid Services (CMS) indicating that GMHA may be removed from the Medicare program as a Medicare service provider effective October 3, 2018 due to certain noncompliance with federal standards noted following a visit made by CMS in April 2018. The hospital was required to submit a corrective action plan by June 15, 2018. GMHA did submit the corrective action plan and is optimistic, it has addressed the CMS findings and will continue to meet the Conditions of Participation.

Due to uncertainty, the accompanying financial statements do not reflect any adjustments which may ultimately arise from these matters.

Very truly yours,

Mr. Peter John Camacho
Hospital Administrator

Ms. Benita Manglona
Chief Financial Officer
