### SIGNIFICANT PRESERVATION ACCOMPLISHMENT SUMMARY—REVIEW & COMPLIANCE (Grantor approved extension - no report)

# Future Challenges & Outlook

**PARKS ~** Revitalization & restoration of public parks and recreational facilities. The challenge will be to continue to improve and ensure that maintenance standards are kept for the enjoyment of our island residents and visitors. We can achieve this efficiently by continuing forward with the outsourcing of certain maintenance components and expanding our existing partnership programs to develop community stewardship and pride.

**RECREATION ~** The challenge will be to continue to provide our community with recreation programs that are close to home to keep our youth and community busy, while provide a venue for healthy activity. We will need to focus our efforts on maintaining our newly renovated facilities and expand and improve facilities requiring repair as well as developing new venues to meet the island's populist centers and recreational trends.

**HISTORIC PRESERVATION ~** With the resurgence in development and the planned paced military buildup, the challenge and outlook for the future will be balancing the growth with our island's need to protect and preserve our historic resources. Safeguards are needed to ensure that the impacts of growth, development and land use do not negatively impact significant cultural and historical resources.
