We Are: Guahan Academy Charter School (GACS) is a 501(c)(3) non-profit, private corporation. The Charter School was established (1) to provide a free, public charter school that is non-discriminatory in its admission policies; (2) to enroll students who reside throughout any of the villages on Guam; and (3) to serve as a prototype school for the National Institute for Direct Instruction (NIFDI) School Wide Reform Model.

Our Philosophy:

At GACS, we believe that each student can learn and become productive citizens when given resources that support and promote lifelong learning to attain academic and social successes. We understand that learning is an evolving concept. Therefore, given the tools of effective research-based practices, students will be offered opportunities to challenge themselves and take ownership of their learning. In terms of social development, we believe in building character and encouraging students to be productive members of society. With our focus on resourcefulness, respect, and responsibility, we aim to nurture student’s abilities to set and achieve goals, communicate effectively, think critically, and develop a self-motivated pursuit of knowledge

Charter: GACS is Guam’s first charter school approved on August 5, 2010. It opened its doors to 490 students in August 2013. As of September 30, 2021(which is for SY 21-22), GACS has 765 students enrolled.

Academic Assessment Summary of SY 2021-2022

GACS participated in taking the ACT Aspire from March 28, 2022 – May 20, 2022, and were able to test grades 3 to grades 7 and PreACT for grades 8th – 11th. Approximately 300 students took the assessment. The test was administered on campus with the use of school-issued electronic devices. The assessment results for Spring 2022 manifests a significant improvement compared to the results for Spring 2021. Both Spring 2021 and Spring 2022 assessment results are shown to identify the improvement on student achievement.

OUR CHALLENGES AND FUTURE OUTLOOK:

Accreditation

Guahan Academy Charter School was granted a full five-year accreditation through June 30, 2025 by the North Central Association Commission on Accreditation and School Improvement, the Northwest Accreditation Commission, and the Southern Association of Colleges and Schools Council on Accreditation and School Improvement.

Challenges

There was an increase in the rate of absences from both students and employees. Teacher retention is a major concern this school year due to inflation rates and Governor approved pay increase for GDOE teachers. Although GACS continue to work on planning and building a new facility, finding a contractor or a developer who can support the acquisition of a permanent home for our Kindergarten to 12th grade students, remains a challenge.

Accomplishment and Outlook

The school-wide action plan's goal on student achievement was fulfilled as reflected by the district wide assessment results. Opportunities to bridge the learning loss were made available through summer classes and sports development. School improvement aspect was also fulfilled as the following objectives were met:

- Development of "compensation schedule" that allows for professional growth;
- Data driven Professional Development opportunities;
- Maintenance and renovation of primary classrooms for safety;
- Renovation of employee lounge and administrative offices to streamline workflow and school operations
