CERTIFIED PUBLIC ACCOUNTANTS

February 19, 2016

To the Board of Trustees  
Government of Guam Retirement Fund

We have audited the financial statements of Government of Guam Retirement Fund (the Fund) for the year ended September 30, 2015, and have issued our report thereon dated February 19, 2016. Professional standards require that we provide you with information about our responsibilities under generally accepted auditing standards, as well as certain information related to the planned scope and timing of our audit. We have communicated such information in the proposal that we submitted. Professional standards also require that we communicate to you the following information related to our audit.

Significant Audit Findings

*Qualitative Aspects of Accounting Practices*

Management is responsible for the selection and use of appropriate accounting policies. The significant accounting policies used by the Fund are described in Note 4 to the financial statements. Management adopted accounting policies related to Governmental Accounting Standards Board Statement No. 68 during 2015. The application of existing policies was not changed during 2015. We noted no transactions entered into by the Fund during the year for which there is a lack of authoritative guidance or consensus. All significant transactions have been recognized in the financial statements in the proper period.

The Fund did adopt Governmental Accounting Standards Board Statement No. 68 during the fiscal year. This Statement has a significant impact on all Government of Guam employers, since it requires the recognition and presentation of a liability directly on the face of the financial statements for the net pension liability calculated by the Fund's actuary. Each line agency and autonomous agency will reflect a significant decrease in net position because of the implementation of this Statement. For the Government of Guam Retirement Fund, the net pension liability as of September 30, 2015 that was previously not recorded was \$3,749,094.

Accounting estimates are an integral part of the financial statements prepared by management and are based on management's knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance to the financial statements and because of the possibility that future events affecting them may differ significantly from those expected.

Fax Nos.: (671) 646-5045 / (671) 472-2686

*Difficulties Encountered in Performing the Audit*

We encountered no significant difficulties in dealing with management in performing and completing our audit.

*Corrected and Uncorrected Misstatements*

Professional standards require us to accumulate all known and likely misstatements identified during the audit, other than those that are trivial, and communicate them to the appropriate level of management. There were no significant uncorrected misstatements of the financial statements.

*Disagreements with Management*

For purposes of this letter, professional standards define a disagreement with management as a financial accounting, reporting, or auditing matter, whether or not resolved to our satisfaction, that could be significant to the financial statements or the auditor's report. We are pleased to report that no such disagreements arose during the course of our audit.

*Management Representations*

We have requested certain representations from management that are included in the management representation letter dated February 19, 2016.

*Management Consultations with Other Independent Accountants*

In some cases, management may decide to consult with other accountants about auditing and accounting matters, similar to obtaining a "second opinion" on certain situations. If a consultation involves application of an accounting principle to the Fund's financial statements or a determination of the type of auditor's opinion that may be expressed on those statements, our professional standards require the consulting accountant to check with us to determine that the consultant has all the relevant facts. To our knowledge, there were no such consultations with other accountants.

*Other Audit Findings or Issues*

We generally discuss a variety of matters, including the application of accounting principles and auditing standards, with management each year prior to retention as the Fund's auditors. However, these discussions occurred in the normal course of our professional relationship and our responses were not a condition to our retention.

This information is intended solely for the use of the Board of Trustees and management of Government of Guam Retirement Fund and is not intended to be and should not be used by anyone other than these specified parties.

Very truly yours,
