A MESSAGE

FROM THE PUBLIC AUDITOR

In my fourth annual report as Guam's elected Public Auditor and the completion of year one of my renewed four-year term, 2021 was another challenging year and one where we had to adapt as our island continued to face challenges associated with the coronavirus pandemic. It was in March 2020 that the island, and the world for that matter, succumbed to the effects of the pandemic, including major hits to our island economy, healthcare, and school systems. Despite the uncertainty of local and world events, the work of the Guam Office of Public Accountability continued.

During 2021, we issued nine performance audits, had oversight over 28 financial audits, and administered 15 procurement appeals. These audits identified over \$6.3 million (M) in financial impact and represented over \$2.9M in procurement value for the appeals. Our office also updated the audit contracts for two Government of Guam agencies, with a specific provision to issue financial audits no later than March 31st after the fiscal year (FY) ends.

Our budget for FY 2021 increased slightly to \$1.31M when compared to the \$1.25M in FY 2020. GovGuam appropriations are our primary source of revenues to fund our operations. As of the writing of this report, our staff complement stands at 13, including the Public Auditor. In 2021, we saw a loss of three experienced auditors to autonomous agencies and the federal government that afforded them higher salaries. We were able to recruit four entry-level accountability auditors to increase our productivity, issue more audits, and look forward to recruiting a Supervising Accountability Auditor in 2022.

After learning and adapting to the new work environment caused by the pandemic, our office was able to secure a grant to update and upgrade our information technology equipment and capabilities. Each auditor was outfitted with new computer equipment and the ability to work remotely should the need arise. We have also made vast improvements to the delivery of our work products, including the rollout of our mobile app, which allows direct access to our work on your mobile device. Future improvements that will streamline board meeting reporting requirements and online filing of procurement appeals are in the beta testing phase and scheduled for release in 2022.

In December 2021, a team of auditors from the Republic of Palau, Commonwealth of the Northern Marianas, and Graduate School conducted a Government Auditing Standards-required peer review and gave OPA a full compliance rating, the highest rating that can be achieved in a quality control review. There were no management letter comments and the review covered performance audits in calendar years (CY) 2017 to 2019. This rating would not have been possible without the hard work, commitment, professionalism, dedication, and attention-to-detail of the OPA staff. OPA's next peer review is scheduled for the summer of 2023 and will cover calendar years 2020, 2021, and 2022.

Looking forward to 2022, we will be celebrating our 30th year since the creation of the Guam Office of Public Accountability in 1992. Through the years, our office has evolved and found our niche as a reliable and trusted office that delivers dependable audits and information to our various stakeholders. Earlier this month, we released our 2022 Annual Audit Plan that outlines the activities our office will engage in. It continues to be our goal to be proactive and help the Government of Guam become more effective and efficient.

In closing, it is truly an honor to serve the people of Guam as your Public Auditor. We have accomplished so much during my time in this office, but there is more work to be done. It is with renewed commitment that OPA continues to be a watchdog over government spending and promote accountability and transparency in the Government of Guam. Un dangkolo na si Yu'os ma'ase'!

Senseramente,

Benjamin J.F. Cruz
Public Auditor

PERFORMANCE AUDITS

We issued nine performance audits in 2021.

A **performance audit** is an independent assessment of government specific programs to determine if goals and objectives are being achieved effectively, economically and efficiently.

This is akin to a doctor looking into a particular area, such as your heart, liver, kidney, etc.

Why Conduct Performance Audits?

Title 1 of the Guam Code Annotated (GCA) §1908 requires the Public Auditor to conduct post audits of all the transactions and accounts of all departments, offices, corporations, authorities, and agencies in all of the branches of the Government of Guam.

The Public Auditor may also conduct or cause to be conducted such other audits or reviews as necessary. We conduct audits to improve public transparency and accountability and the effective and efficient management of public funds and programs.

We endeavor to provide independent, nonpartisan, accurate and timely assessments of GovGuam's financial and operating activities in accordance with Generally Accepted Government Auditing Standards (GAGAS).

We conduct audits to improve public transparency and accountability and the effective and efficient management of public funds and programs.

STAGES OF A PERFORMANCE AUDIT

1) SURVEY

We perform an initial evaluation of the audit subject to determine the feasibility, financial impact, and cost-benefit. We conduct interviews with agency personnel to gain an understanding of the operation and the program under audit. Throughout the audit, auditors meet with the agency to discuss initial findings, issues identified, and areas needing further audit work.

2) FIELDWORK

We gather relevant and appropriate evidence regarding the issues identified in the survey phase. Testing results are consolidated to formulate a finding or conclusion, which are referred to the agency for validation.

Peer Review 2021

Government Auditing Standards require independent peer reviews every three years to assure audit organizations are complying with professional standards and legal requirements.

Due to the global pandemic, OPA's peer review was postponed to 2021 covering performance audits issued in CY 2017 to 2019. The Peer Review was independently done by a team selected by the Association of Pacific Islands Public Auditors (APIPA).

OPA received a rating of "Pass" in 2021, resulting in a 7th Full Compliance rating.

3) REPORTING

We provide draft and final reports on findings and recommendations. An exit meeting is held to discuss the audit report and need for an auditee written response, which will be included in the final audit report. The report is then distributed to the auditee and stakeholders.

4) RECOMMENDATIONS FOLLOW-UP

Agencies are required to submit a corrective action plan, document progress, and endeavor to implement recommendations no later than the beginning of the next fiscal year. OPA conducts follow-up with agency officials for the status of the implementation of recommendations.

OPA received a rating of "Pass" in 2021, resulting in a 7th Full Compliance rating.

FINANCIAL AUDITS

We provided oversight on 28 financial audits in 2021.

Independent financial audits are essential in assessing the overall financial performance and health of government entities. It provides reasonable assurance that audited financial statements are presented fairly in compliance with applicable professional standards.

This is akin to having an annual general health check-up.

OUR OVERSIGHT

Title 1 GCA §1909(a) requires all financial audits to be issued by June 30th (nine months after fiscal year-end). Our goal is to issue financial audits no later than six months after fiscal year-end. We also strive for all agencies to not have any material weaknesses or significant deficiencies and/or become low-risk auditees.

After the selection of an audit firm, we remain involved in a monitoring and oversight role over the audit process. We hold an entrance conference, status conferences, and an exit conference as part of this process. These meetings provide the opportunity to ask questions, receive updates on the progress of the audit, and to be informed of any areas of concern.

We also issue financial highlights to provide our stakeholders an overview of the agency's financial performance. Audited financial reports are released

upon the Public Auditor's approval. We commend ILACS, GPT, SiFA, GHC, GGRF, GIAA, GSWA, GVB, GWA, GCC, GPA, CLTC, GALC, UOG, KGTF, and GEDA for issuing their financial audits by March 31, 2021.

**All 28 GovGuam entities/
funds received unmodified
(or “clean”) opinions.**

All government financial audits must include a report on internal control over financial reporting and on compliance, whether or not findings are identified.

All 28 GovGuam entities/funds received unmodified (or “clean”) opinions.

MANAGEMENT LETTER COMMENTS

The independent auditors issued separate letters to management to report deficiencies related to internal control over financial reporting, non-compliance, information technology (IT), and other matters.

In FY 2020 financial audits, 19 GovGuam entities collectively received management letter comments.

PROCUREMENT OF FINANCIAL AUDIT SERVICES

Title 1 GCA Chapter 19 §1908 authorizes the Public Auditor to acquire independent financial audit services from firms. GovGuam entities work with our office to issue Requests for Proposals (RFP) to procure financial audit services.

We issued RFPs for two (2) GovGuam agencies, resulting in audit contracts for FY 2020 through FY 2022 & FY 2021 through FY 2023.

SINGLE AUDIT COMPLIANCE

Government entities that spend more than \$750K in federal grants require an additional report on compliance for each major federal program (“Single Audit”).

The following GovGuam entities were subjected to Single Audits:

- Guam International Airport Authority*
- Guam Waterworks Authority*
- Guam Community College*
- University of Guam
- Port Authority of Guam*
- Guam Housing and Urban Renewal Authority
- Guam Department of Education
- Government of Guam

*GovGuam entities that had no findings on their compliance over major federal programs

The following GovGuam entities had findings in their FY 2020 Single Audit:

- GHURA received an unmodified (“clean”) opinion on its FY 2020 financial statements and its compliance for major federal programs. However, in the compliance report, auditors identified three (3) significant deficiencies in internal control over financial reporting and four (4) significant deficiencies in internal control over compliance related to federal awards.
- GDOE received an unmodified (“clean”) opinion on its financial statements and compliance over major federal programs. However, there were two (2) significant deficiencies in GDOE’s internal control over financial reporting, of which one (1) was also a significant deficiency in their internal control over compliance for major federal programs.
- UOG was issued an unmodified (“clean”) opinion on its financial statements and report on compliance for major federal programs in FY 2020. Independent auditors identified one (1) significant deficiency in internal control over compliance on major federal program related with special tests and conditions for the Small Business Development Center’s agreed upon goals.
- GovGuam received qualified opinions on all but four (4) major federal programs. It had 18 findings in total – 16 of which relate to the ten (10) major federal programs. Eight (8) of these did not comply with applicable requirements rendering them material weakness, four (4) of which are over \$200K in questioned costs.

QUESTIONED COSTS

A **questioned cost** arises from:

1. Alleged violation of a law, regulation, or the terms and conditions of a federal award;
2. Inadequate documentation of costs at the time of the audit; or
3. Unreasonable and wasteful expenditure of funds.

For the FY 2020 Single Audit of GovGuam, the questioned costs for federal awards continued to grow, from \$432K in FY 2016 to \$1.3M in FY 2020.

\$1.3M
Questioned Costs

LOW-RISK AUDITEES RECEIVING FEDERAL FUNDING

One of our goals is for all GovGuam entities subject to a Single Audit Act to qualify as a low-risk auditee. To qualify as a low-risk auditee, an agency must meet the following conditions for three (3) consecutive audit periods:

- Single audits performed annually.
- Unmodified (“clean”) opinion on financial statements.
- No material weaknesses GAGAS.
- No substantial doubt to continue as a going concern.
- None of the federal programs received modified opinions, has material weaknesses, and questioned costs exceeding 5% of total federal awards spent.

Four (4) GovGuam entities maintained their low-risk status in FY 2020:

- GCC
- GWA
- PAG
- UOG

The following entities did not qualify as low-risk auditees:

- GovGuam received qualified opinions on all but four (4) major federal programs.
- GDOE remains a high-risk grantee with the U.S. Department of Education for the past 18 years.
- GHURA had four (4) significant deficiencies in its internal control over compliance related to federal awards.
- GIAA lost its status in FY 2018.

PROCUREMENT APPEALS

We oversaw 15 procurement appeals in 2021.

Procurement appeals are complaints by aggrieved persons against the purchasing agency's decision on (a) protest of method, solicitation or award; (b) debarment or suspension; (c) contractor breach of contract controversy; (d) award determination during a pending protest or appeal; or (e) other matters.

Our office received 15 procurement appeals in CY 2021. As of January 2022, A decision was reached on one appeal, eight appeals were dismissed, and six are ongoing.

We strive to resolve appeals within 90 to 120 days from the time of filing and decide within 30 to 60 days after the hearing.

The agencies involved in these 15 appeals with a total procurement value of \$2.9M were GHURA, GPA, GSA, GDOE, UOG, JOG, GIAA, and GCC.

PROCUREMENT APPEALS IMPROVE THE PROCUREMENT PROCESS

Aggrieved vendors have been deliberative and reflective and invest time, money, and effort to file an appeal. The Public Auditor concluded that vendors continue to scrutinize the GovGuam procurement process. Vendors are analyzing bids and specifications and challenging premature disqualifications. These efforts help strengthen and improve the procurement process.

A common misconception is that appeals prolong the overall

Our office received 15 procurement appeals in CY 2021.

procurement process. However, appeals have been resolved generally within 90 to 120 days. We also encourage parties to agree to resolve their procurement issues.

Procurement appeals revealed the need for further government procurement training. GCC has courses on the procurement process as required by P.L. 32-131 (codified in Guam Procurement Law). All GovGuam procurement personnel must take these training courses.

FILED PROCUREMENT APPEALS & CASES

In CY 2021, OPA received 15 procurement appeals that were addressed as follows:

- Reached a decision on one appeal
- Dismissed eight appeals – three of which due to lack of jurisdiction; and
- Six ongoing appeals

The subjects and dollar values of these appeals were as follows:

Metrolan – Connectivity/Internet/Telecom Bundled Services	\$32K
Fleet and Fuel Management Software Services	\$68K
Golf Carts	\$74K
Telecommunication Service – Plain Old Telephone Services (POTS)	\$71K

TOTAL PROCUREMENT

OPA HEARING OFFICERS

The Public Auditor assigns certain time-sensitive procurement appeals to contracted OPA Hearing Officers who are licensed attorneys from Thompson, Thompson, Alcantara, PC, and McDonald Law Office, LLC. OPA established this pool to handle the workload and prevent potential conflicts. There are cost savings from hiring contractual attorneys on an as-needed basis versus a full-time staff attorney. OPA Hearing Officers may also provide other legal advice and services as requested by the Public Auditor.

For FY 2021 legal costs for procurement appeals and other legal services mounted to \$32K, which is \$26K higher than the previous year of \$6K. The increase was due to more cases filed in CY 2021.

LEGISLATIVE MANDATES

Besides performance audit activities and financial audit oversights, we also perform legislative mandates that have expanded our duties and responsibilities. OPA has 86 open mandates as of CY 2021:

- 37 required OPA to receive reports and other information from various GovGuam agencies.
- 21 required OPA to conduct audits.
- 22 required OPA to provide oversight, approval, or conduct a specific activity.
- Four (4) required OPA to be a member of a board, committee, group, or task force.
- Two (2) required OPA to submit reports to the Guam Legislature and Office of Finance and Budget.

Of the 21 mandates requiring OPA to conduct audits, three Charter Schools (ILACS, SIFA and GACS) are currently included in the annual financial audit.

In January 2017, we reported the status of all the legislative mandates issued to OPA from January 2001 to September 2016 in OPA Report No. 17-01, OPA's Status of Legislative Mandates.

This report found that there were 173 mandates imposed to OPA, of which 153 or 88% were closed because they were either addressed, the agencies submitted the required reports, the mandates were not the best use of OPA's limited resources, or deadlines to submit the required audits have lapsed.

As part of the General Appropriations Act of 2013, P.L. 31-233 instituted that the governing Boards and Commissions of all agencies, public corporations, and all departments of the Government of Guam shall provide electronic copies of monthly Board and Commission meeting agendas, approved minutes, and other attachments and addenda as discussed in each monthly meeting, to the Governor of Guam and the Speaker of the Guam Legislature no later than 15 days after the end of said meeting and post the same on its website of the agency, public corporation, or department to which it governs. The audio recording of each meeting shall be provided to the OPA within seven (7) calendar days after the meeting.

In addition, P.L. 30-127 requires no later than 60 calendar days after the independent audit report for a government entity has been released, all government entities shall submit to the Public Auditor/OPA and Speaker/Guam Legislature a Citizen-Centric Report via electronic format and post the same on their website.

The Lakewood Experience, sponsored by the U.S. Department of the Interior Office of Inspector General, was held virtually for the first time from June 14 to June 25, 2021.

Guam OPA auditors Johanna Pangelinan and Thomas Eladio Battung attended the Lakewood Experience with ten others from the Pacific Island Audit Offices of the Federated States of Micronesia, the Republic of Marshall Islands, American Samoa and Palau.

The Lakewood Experience is a highly interactive two-week program that encompasses the phases of an audit and is comprised of two main aspects: classroom training and discussion, and a case study. Completed learning objectives include enhancing their understanding of the audit process, gaining knowledge and hands on experience regarding the audit process, employing critical thinking skills and working as a team to accomplish assigned tasks and exercises, and enhancing their knowledge of current auditing standards and acceptable practices.

This is the seventh year the OPA participated in the Lakewood Experience.

REPORT FRAUD, WASTE, AND ABUSE 47-AUDIT (472.8348)

OPA has a hotline via telephone and website where citizens can report government fraud, waste, and abuse.

Waste is the act of using or expending resources carelessly, extravagantly, or to no purpose. Importantly, waste can include activities that do not include abuse and does not necessarily involve a violation of law. Rather, waste relates primarily to mismanagement, inappropriate actions, and inadequate oversight.

Fraud involves obtaining something of value through willful misrepresentation.

Abuse is behavior that is deficient or improper when compared with behavior that a prudent person would consider reasonable and necessary business practice given the facts and circumstances, but excludes fraud and noncompliance with provisions of laws, regulations, contracts, and grant agreements. Abuse also includes misuse of authority or position for personal financial interests or those of an immediate or close family member or business associate.
