#### EXECUTIVE SUMMARY Government of Guam Coronavirus Relief Fund Expenditures-Part I Report No. 20-08, November 2020

We initiated this performance audit of Coronavirus (COVID-19) Relief Fund (CRF) Expenditures in response to the public's concern over questionable COVID-19 related expenses. Additionally, Public Law (PL) 35-86, which became law in May 2020, mandated the Office of Public Accountability (OPA) to conduct semiannual audits of all expenditures associated with the Coronavirus Aid, Relief, and Economic Security Act (CARES Act). This report is Part I of a series of reports and primarily focuses on the CRF processes and the Government of Guam's (GovGuam) CARES Act budget (Spending Plan).

Our audit found that GovGuam generally followed the policies and procedures provided by the CRF Guidance for State, Territorial, Local and Tribal Governments (herein referred to as "Guidance"). This is relative to the eligibility, necessity, and reasonableness of approved budgeted expenditures in the government's response to the COVID-19 pandemic. Additionally, the Spending Plan allocation of funds to agencies was generally based on the criteria of eligible expenditures outlined in the Guidance. However, our initial review of the Spending Plan and the supporting documents found that: a) GovGuam lacked specific processes and control activities for the CRF; b) certain approved budget amounts lacked pertinent information and exceeded agencies' request (\$12.2 million (M)); and c) some approved budgeted expenditures are questionable based on their description and/or cost in the Spending Plan (\$25M).

#### **GovGuam's Spending Plan Followed Policies and Procedures in the Guidance**

Generally, GovGuam followed the policies and procedures in formulating its Spending Plan for \$118M from the CRF. Approved budgeted expenditures were following the eligibility, necessity, and reasonableness outlined in the Guidance. However, GovGuam lacked written specific processes and control activities for the CRF.

#### GovGuam Lacked Written Specific Processes and Control Activities for the CRF

According to the Standards for Internal Control in the Federal Government, control activities are the actions management establishes through policies and procedures to achieve objectives and respond to risks in the internal control system. Proper controls should be in place for various processes to mitigate the risks of fraud.

GovGuam through the oversight of the Department of Administration (DOA) and Bureau of Budget and Management Research (BBMR) lacked written specific processes and control activities to govern the CRF, which include approvals, authorizations, verifications, reviews of operating performance, security of assets (i.e. purchased and donated supplies, inventories, and fixed assets), and segregation of duties (i.e. person requesting for the release or modification of allotments is different from the person approving them). Some categories of these control activities are proper execution, accurate and timely recording, review, and bank reconciliation, control and disposition of beneficiary's return checks, and appropriate documentation of transactions including reversal or reclassification of accounting entries. According to the DOA Director, existing internal control for accounting transactions is applied to the CRF, and according to the BBMR Director, the acceptance of COVID-19 funds come along with policies and procedures provided by the Guidance and they follow the existing internal controls.

#### **Criteria in Spending Plan Fund Allocation to Agencies Followed the Guidance**

BBMR formulated the Spending Plan generally based on the criteria of eligible expenditures outlined in the Guidance. However, our initial review of the Spending Plan and the supporting documentation found that certain approved budget amounts lacked pertinent information, exceeded agencies' request; and some are questionable based on their description and/or cost as reflected in the Spending Plan.

#### **Certain Approved Budget Amounts Lacked Pertinent Information**

Our review of documents provided by BBMR in the Governor's response to a Senator's request for clarification and justification on the Spending Plan noted that some approved budget amounts lacked pertinent information such as: a) a breakdown or had an insufficient breakdown; b) brief details of budgeted expenditures; and c) without agency request, and exceeded agency request. These approved budget amounts ranging from \$46 thousand (K) to \$7M were for seven agencies, while those for \$47M were for public and business assistance (\$40M) and farmer emergency relief (\$5M).

Per BBMR Director, they were aware that input from a few government departments and agencies included proposed expenditures without a detailed breakdown of the expenses. However, per BBMR, the input the agencies provided was to determine their budget estimates for the anticipated COVID-19 requirement. The disbursement or allotment is dependent on the actual expenses with appropriate documentation to support the release of funds.

#### Certain Approved Budget Amounts Exceeded Agency's Request

Certain approved budgeted expenditures reflected amounts exceeding the agency's requests. Excesses, ranging from \$875K to \$6M or a total of \$12.2M, were not supported with a clear description of expenses nor with details of a cost estimate. BBMR Director stated that they included the amounts exceeding the government entity's official request based on the request and recommendation of the fiscal management team and approval of the Governor. According to him, there are government entities, which received additional funds for the programs and any unused funds could be identified for reprogramming to assist other program area funding shortfalls.

#### Approved Budgeted Expenditures Appeared Questionable in Description and/or Cost

Certain approved budgeted expenditures amounting to \$12M appeared questionable as to the nature of the expenses to satisfy the funds' eligibility criteria. Some of these did not have description, descriptions are vague and in general terms or cannot be associated with response to mitigate the effect of the pandemic. Projected costs of certain approved budgeted expenditures totaling \$877K appeared unreasonable due to either the absence of a clear definition of the expenses or the absence of a breakdown with quantity and unit costs and cost estimates. Moreover, budget amounts, particularly costs to improve record-keeping and online tax filing and financial reporting system amounting to \$12M and those categorized "to improve telework capabilities" for \$124K appeared questionable as to their descriptions and/or costs. Overall, questionable budgeted expenditures in these categories amounted to \$25M.

BBMR Director stated that due to time constraints imposed to formulate a COVID-19 budget these estimated cost amounts are based on agencies' requests. He further stated that although the requested dollar amounts are deemed questionable, all proposed expenditures requested were for COVID-19

related purposes. According to him, these amounts were used for budgeting purposes, were not verified by BBMR, and were used as good faith estimates.

Per BBMR Director, the CARES Act budget was prepared at the direction of the fiscal management team based on the input and discussions with agency heads and approved by the Governor who has full discretion on the use of funds. Additionally, he stated that the budget approved by the Governor is neither fixed nor inflexible and therefore can be reprogrammed or reallocated at the Governor's discretion.

#### **Required COVID-19 Monthly Expenditure Report Not Satisfactorily Complied**

Guam Public Law No. 35-86, which became effective May 2020, required that Governor submit a report to the Speaker of the Guam Legislature, all COVID-19 expenses within 20 days after the close of each calendar month. Executive Order 2020-13 issued also in May 2020 likewise stated the same *monthly* reporting requirement to be submitted to the Legislature. This reporting requirement had not been complied with as of July 31, 2020. BBMR, however, submitted to the Guam Legislature the Federal Stimulus and Assistance Update for CARES Act and COVID-19 Programs Report as of May 14, 2020 and July 31, 2020. This report was presented on *year to date basis without details of* expenditures, thus did not satisfactorily comply with the reporting requirement. Subsequently, on October 7, 2020, DOA submitted to the Guam Legislature COVID-19 expenditure report as of August 31, 2020, which generally reflected total expenditures per agency.

### GovGuam Spent \$34.9M (30%) of the \$118M CRF and \$661.4M (70%) of the \$949.1M Federal Grants Received

As of July 31, 2020, GovGuam had already spent a total of \$34.9M or 30% of its CARES Act Budget of \$118M. Additionally, it spent \$661.4M (70%) of the total \$949.1M received from the US Treasury and other federal grantors.

#### **Conclusion and Recommendations**

We recognize the administration's enormous task of ensuring the health and safety of the people of Guam from the COVID-19 pandemic as well as its diligence in working towards Guam's economic recovery. We understand that in the short amount of time to spend the CARES Act funds, drafting specific controls and putting them in place to ensure appropriate spending may not be of utmost priority. However, due to the substantial amount of taxpayer's money allocated to respond to the COVID-19 pandemic, it is highly important to establish mechanisms to provide safeguards and reasonable assurance that federal funds are used for the intended purposes, help ensure program integrity, and address fraud risks. Additionally, compliance with the mandated monthly COVID-19 expenditure report would assure full transparency and accountability. We therefore recommend:

- 1. DOA Management to design and implement control activities by adopting written policies and procedures specific for the CRF and other financial assistance, if possible sooner, or moving forward.
- 2. DOA and BBMR Management to satisfactorily comply with the monthly reporting requirement for all COVID-19 expenditures.

Benjamin J. F. Cruz Public Auditor

### Introduction

This report presents the results of our performance audit of the Government of Guam's (GovGuam) Coronavirus Relief Fund (CRF) Expenditures Part I. We initiated this audit in response to the public's concern over questionable Coronavirus (COVID-19) related expenses. These expenditures were funded by the agencies' allocation from federal funds provided by the United States Department of Treasury, relative to the Coronavirus Aid, Relief, and Economic Security (CARES) Act. Additionally, Public Law (PL) 35-86, which became law in May 2020, mandated the Office of Public Accountability (OPA) to conduct semiannual audits of all expenditures associated with the CARES Act.

The objectives of this audit were to determine whether:

- 1. GovGuam has written policies and procedures, processes, and internal controls pertaining to the receipt, allocation, and disbursements of CRF; and
- 2. fund allocations to government agencies were based on established criteria and methodology and these were adhered to.

This report is Part I of a series of reports and primarily focuses on GovGuam's CRF processes and CARES Act Budget (Spending Plan).

Part II will focus on the audit of CRF expenditures. Because of the broader scope of Part II as CRF fund disbursements end on December 31, 2020 or later, there may be a series of audit reports that would be issued relative thereto.

The objectives, scope, and methodology are detailed in Appendix 1.

#### Background

In January 2020, the World Health Organization (WHO) declared the outbreak of a new coronavirus disease in Hubei Province, China to be a Public Health Emergency of International Concern. There is a high risk of COVID-19 spreading to other countries around the world. The Centers for Disease Control and Prevention (CDC) is working closely with the WHO and other partners to prepare and respond to COVID-19. CDC routinely provides technical assistance to ministries of health to improve our collective response to infectious disease threats like COVID-19 and is committed to stopping its spread.

GovGuam took proactive steps to constrain the spread of the virus by instituting total or partial lockdowns within the island. The Governor of Guam issued several Executive Orders (EO) initially declaring Guam in state of emergency and subsequent EOs to provide relief to victims of disasters to assist with their emergency needs and provide relief to Guam's small businesses, which had suffered great financial hardships due to the Covid-19 pandemic.

#### **Governor of Guam's Executive Orders**

On March 14, 2020, Governor Lourdes Leon Guerrero through EO 2020-03 declared a state of emergency for Guam in response to the threat of COVID-19 on the island. All GovGuam departments and agencies were directed to document all COVID-19 emergency expenses available for inspection in anticipation of federal disaster assistance. Two days later, EO 2020-04 closed all nonessential GovGuam offices and schools, prohibited social gatherings, mandated social distancing, and restricted entry into Guam without proper documentation. EO 2020-11 established the Pandemic Conditions of Readiness (PCOR) System as part of the Governor's Chålan Para Hinemlo plan. This plan created a system of readiness, which sets the conditions for the gradual lifting of mandates and restrictions imposed in response to a public health emergency. EO 2020-12 established a disaster relief program for the victims of the disaster caused by the pandemic, and EO 2020-18 launched the small business assistance program to provide financial assistance to small businesses that suffered due to closures, reduced consumer spending and declined visitors' arrival.

#### EO 2020-13 Pandemic Recovery Office

EO 2020-13 established the COVID-19 Pandemic Recovery Office (Recovery Office) to take immediate steps in increasing transparency with the use of federal funds relative to COVID-19. This includes submission of monthly reports on COVID-19 related expenditures to the Legislature and posting them on the Office of the Governor's website. The Recovery Office is responsible for working with the Federal Emergency Management Agency relative to the current disaster and is authorized to provide information, assurances, requests, or justifications on behalf of the Governor of Guam.

#### CARES ACT

A series of US federal laws were enacted to provide direct economic relief to the American people, including individuals and small businesses while providing health care resources to the front line battles where medical professionals are fighting the virus and defending the lives of Americans. One of these was the CARES Act (PL 116-136).

On March 27, 2020, President Donald Trump signed the CARES Act into law. This provided an estimated Two Trillion Dollar economic stimulus package to states and territories to address the health and economic impacts of the COVID-19 pandemic. The law intended to provide emergency assistance and health care response for individuals, families, and businesses affected by the pandemic.

#### **Coronavirus Relief Fund Guidance for State, Territorial, Local and Tribal Governments**

The CRF was established by the CARES Act to provide direct assistance to state, local, territories , and tribal governments to address costs associated with the current public health emergency. The US Treasury Department granted \$118M CRF money to assist GovGuam in its response to the COVID-19 pandemic. Per the Governor's memorandum to the Speaker of the 35<sup>th</sup> Guam Legislature in May 2020, the total CRF amount Guam received from the federal government totaled \$117.97 million (M).

The payments from the CRF are subject to the restrictions outlined in the Guidance issued in April 2020. Payments shall only cover those costs that:

- 1. are necessary expenditures incurred due to the public health emergency with respect to the COVID-19;
- 2. were not accounted for in the budget most recently approved as of March 27, 2020 for the State or government; and
- 3. were incurred during the period that begins on March 1, 2020, and ends on December 30, 2020.

Expenditures incurred "due to" the public health emergency means that expenditures must be used for actions taken to respond to the public health emergency. This may include medical and public health needs, expenditures to respond to second-order effects of the emergency such as economic support to those suffering from employment or business interruptions due to COVID-19 related business closures. The Guidance also specifies that expenditures using Fund payments must be "necessary". Expenditures must be reasonably necessary for its intended use in the reasonable judgment of the government officials responsible for spending fund payments. Funds may not be used to fill shortfalls in government revenue to cover expenditures. Revenue replacement is not permissible under the use of Fund payments. The Inspector General of the Department of Treasury shall conduct monitoring and oversight of the receipt, disbursements, and use of these funds.

# Memorandum M-20-21 – United States Office of the Management and Budget - April 10, 2020 -Implementation Guidance for Supplemental Funding Provided in Response to COVID-19

M-20-21 directed agencies to leverage and continue to employ existing financial transparency and accountability mechanisms wherever possible. Agencies must report information on awards to the public with information in a clear, accurate, and timely manner. Agencies must continue to use standard best practices that include internal controls necessary for planning and managing contracts, loans, grants, and other forms of assistance.

## Rapid and Transparent Implementation of Federal and Local Assistance Program Related to COVID-19 Pandemic-(Public Law 35-86)

On May 5, 2020, the 35<sup>th</sup> Guam Legislature overrode the Governor of Guam's veto on Bill-333-35, which became P.L 35-86. The law generally called for the government's swift response to the pandemic with full accounting and transparency of the COVID-19 expenses.

- Section 6- Any funds that may be subject to legislative authorization or appropriation for expenditures pursuant to US PL 116-136 shall not be expended, earmarked, or set aside without legislative appropriation and not be subject to transfer by the Governor.
- Section 7 –*I Maga'Hågan Guåhan* shall keep a full account of all COVID-19 expenses funded by either local or federal funds and shall submit a report to the Speaker of the Guam Legislature within twenty (20) days at the close of each calendar month.
- Section 8- *The Public Auditor* shall conduct semi-annual audits of all expenditures on Guam associated with US PL 116-136, for compliance with all the applicable local and federal laws, and may require information from GovGuam agencies or *I Maga'håga* necessary to complete the audits.

#### **Results of Audit**

Our audit found that GovGuam generally followed the policies and procedures provided by the CRF Guidance for State, Territorial, Local and Tribal Governments (herein referred to as "Guidance"). This is relative to the eligibility, necessity, and reasonableness of expenditures in its response to the COVID-19 pandemic. However, GovGuam lacked written specific processes and control activities governing the CRF. Additionally, the Spending Plan allocation of funds to the agencies was generally based on the criteria of eligible expenditures outlined in the Guidance. Although, in our initial review of the Spending Plan, we found deficiencies where certain approved budget amounts lacked pertinent information, certain approved budget amounts exceeded agencies' request (\$12.2M), and certain approved budgeted expenditures appeared questionable based on their description and/or cost as reflected in the Spending Plan (\$25M).

Although not related to the objectives of this audit, we found compliance and informational matters relevant to the audit subject. Specifically:

- Required monthly COVID-19 expenditure report not satisfactorily complied;
- As of July 31, 2020 GovGuam spent \$34.9M (30%) of the \$118M CRF; and
- As of July 31, 2020 GovGuam spent \$661.4M (70%) of \$949.1M total federal grants received.

#### GovGuam Lacked Written Specific Processes and Control Activities for CRF

Memorandum M-20-21 –US Office of the Management and Budget dated April 10, 2020 (Implementation Guidance for Supplemental Funding Provided in Response to COVID-19) directed that agencies must continue to use standard best practices that include internal controls necessary for planning and managing contracts, loans, grants and other forms of assistance.

The CARES Act Compliance, Oversight, and Investigation guidelines have very specific requirements for how stimulus dollars can be used. Building active internal controls around this requirement are critical, making sure that there is one person or group responsible and accountable for these compliance activities.

According to the Standards for Internal Control in the Federal Government, internal control serves as the first line of defense in safeguarding assets. Control activities are the actions management establishes through policies and procedures to achieve objectives and respond to risks in the internal control system. Proper controls should be in place for various processes to mitigate the risks of fraud.

GovGuam lacked written specific processes and control activities governing the CRF. These control activities through policies and procedures include a range of activities, which include approvals, authorizations, verifications, reviews of operating performance, security of assets (i.e. purchased and donated supplies, inventories, and fixed assets), and segregation of duties (i.e. person requesting for the release or modification of allotments is different from the person approving them). Some categories of these control activities are proper execution, accurate and timely recording, review, and reconciliation, control and disposition of beneficiary's return checks,

and appropriate documentation of transactions including reversal or reclassification of accounting entries.

According to the DOA Director, the CRF funded transactions are subject to the department's existing internal control for accounting transactions. He stated further that GovGuam's internal control process and procedures serve well to manage their funds.

In his responses to the preliminary and final audit findings, the BBMR Director stated that the acceptance of COVID-19 funds comes along with written policies and procedures as provided by the Guidance. Additionally, BBMR Circular No. 20-06, addressed to all department and agency heads provided them another level of review to ensure that no allotment releases are made without supporting documentation. These demonstrate their adherence to existing internal controls. The Circular emphasized that the release of funds to the agencies will be based upon the justification and supporting documentation. See a copy of BBMR Circular 20-06 in Appendix 4.

Due to the substantial amount of taxpayers' money allocated for the pandemic response, wellwritten processes, procedures, and internal control measures will properly guide the oversight agencies, processors, reviewers, and approvers involved with receiving, disbursing, recording, and reconciliation of funds. This will eliminate misunderstandings by clearly identifying job responsibilities and establishing boundaries. Additionally, this will also ensure that funds are used as intended and in an efficient manner with full transparency and accountability. Therefore, we recommend that GovGuam design and implement control activities by adopting written policies and procedures for CRF and other financial assistance, if possible sooner, or moving forward.

#### **Criteria in Spending Plan Fund Allocation to Agencies Followed the Guidance**

In March 2020, WHO issued guidance on *How to Budget for COVID-19 Response* and stated that every country must develop specific processes for allocating budget funds to the pandemic response.

In May 2020, the International Monetary Fund-Fiscal Affairs in its *Special Series on COVID-19*, IMF experts identified some measures that could help mitigate corruption vulnerabilities with emphasis on budget execution and control. These are:

- Budget execution should be conducted in accordance with good practices, activating emergency provisions where available.
- Controls should be adapted and streamlined to ensure timeliness without compromising safeguards.

Having fully received \$118M from the US Treasury, the Governor directed BBMR, in coordination with her fiscal management team, to prepare a budget for the CARES Act funding. BBMR instituted a mass budget call to request information from departments and agencies relative to COVID-19 expenses. After a review of the individual government entities' requests to determine their needs, BBMR and the fiscal management team created the CARES Act Budget for the \$118M provided by the US Treasury. This spending plan was provided to the 35<sup>th</sup> Guam Legislature on May 5, 2020. See Table 1 below for the summary of GovGuam's CARES Act Budget. See Table 2 for the summary of the CARES Act Budget with expenditures inclusive of encumbered amounts and fund amounts available as of July 31, 2020. For complete details, see Appendix 5.

Table 1. Summary of GovGuam's CARES Act Dudget-May 5, 2020												
Federal Grant Description	Estima	ated Amount	Amoun	t Received as								
			of Jun	ne 10, 2020*								
Covid-19 Related Medical Expenses	\$	16.2M	\$	16.2M

Facilitate Compliance with Public												
Health Measures												
Covid-19 Related Economic Support	\$ 40.0M	\$ 40.1M	\$ 23.9M	\$ 16.2M								
Covid-19 Related Expenses for the	\$ 22.1M	\$ 22.0M	\$.08M	\$ 21.9M								
Function of the Government												
Total	\$ 118.0M	\$ 118.0M	\$ 39.3M	\$ 78.7M								

Table 2: Summary of CARES Act Budget as of July 31, 2020

BBMR formulated the Spending Plan generally based on the criteria of eligible expenditures outlined in the Guidance. In developing the Spending Plan, the Guidance was also provided by BBMR to the various GovGuam executive line departments and agencies, as well as semi-autonomous and autonomous agencies and all branches of the government when asked to provide their respective expenses and anticipated expenditures for their COVID-19 pandemic response and recovery requirements. However, in our initial review of the Spending Plan and the supporting documentation, we found that: a) certain approved budget amounts lacked pertinent information; b) certain approved budget amounts exceeded agencies' request totaling \$12.2M; and c) \$25M of certain approved budgeted expenditures appeared questionable based on their description and/or cost as reflected in the Spending Plan.

## Certain Approved Budget Amounts Lacked Pertinent Information and /or Exceeded Agency's Request

#### Lacked Pertinent Information

In May 2020, the Governor responded to the Assistant Majority Leader of the 35<sup>th</sup> Guam Legislature who requested clarification and justification of the CARES Act Budget. Our initial review and analysis of the approved spending plan versus the documents submitted by the agencies requesting for a budget/allocation disclosed that most approved budget amounts are eligible and necessary. However, we noted that certain approved budget amounts lacked pertinent information such as a breakdown or had an insufficient breakdown, details, and /or without agency request. See Table 3 below for approved budgeted amounts without pertinent information.

Agency	Amount equested	Amount Approved	Executive Branch Comment	Deficiencies
BBMR	\$ 45.7K	\$ 45.7K	Status Quo	No breakdown; no brief details of expenses; no agency request.
DPW	\$ 1.1M	\$ 847.0K	Excluding payroll cost	No breakdown nor brief details of expenses.
GBHWC	\$ 173.5K	\$ 173.5K	-	Documented request- \$155K only. No brief details of expenses.
OOG	\$ 714.4K	\$ 714.4K	Included emergency declaration fund- \$200K	No breakdown; no brief details of expenses; no agency request.
UOG	\$ 140.8K	\$ 		Adjusted request \$122K inclusive of payroll for \$70K.
GDOE	\$ 1.0M	\$ 1.0M	Status quo. Continuation of food program for summer	No breakdown; no brief details of expenses; no agency request.
OHS	\$ 7.0M	\$ 7.0M	Status Quo	No breakdown; no brief details of expenses; no agency request.
Public Assistance	\$ 47.0M	\$ 47.0M	\$20M for public assistance, \$20M for business, \$5K for farmer emergency relief	No brief details of expenses; no agency request. Lacking \$7M in the breakdown.

Table 3: A	pproved F	Sudgeted .	Amounts	Lacked	Pertinent	Information
1 4010 01 11	pproveur	Juugeteu	amounts.	Lucheu		manon

Per BBMR Director's response to the preliminary audit findings, he stated that they were aware that input from a few government agencies included proposed expenditures without a detailed breakdown of the expenses. However, according to him, the inputs the agencies provided were used to determine their budget estimate for the anticipated COVID-19 related expenditures. He

further stated that the disbursement or allotment is dependent on the actual expenses with appropriate documentation to support the release of funds.

#### **Exceeded Agency's Request**

Certain approved budgeted expenditures in the Spending plan reflected amounts exceeding the agency's requests. Excess amounts ranging from \$875K to \$3.0M or a total excess of \$12.2M were not supported with a clear description of expenses, nor with the details of the cost estimate. See Table 4 for a listing of budgeted expenditures that exceeded the agency's request.

Agency	Agency Request			Amount	Excess	Remarks
			A	Approved		
DOA	\$	6.5M	\$	9.5M	\$ 3.0M	Financial system upgrade for COVID transactions
DOC	\$	1.2M	\$	2.2M	\$ 1.0M	Food for detainees and video conferencing
DRT	\$	47.0M	\$	6.0M	\$ 6.0M	For reporting system
GFD	\$	1.1M	\$	2.0M	\$ 875.3K	No explanation for the excess
GMHA	\$	10.6M	\$	11.9M	\$ 1.3M	Doctors contracts
Total	\$	19.5M	\$	31.7M	\$ 12.2M	

#### Table 4: Budgeted Expenditures Exceeded Agency's Request

Below is BBMR's explanation of certain excesses based on their replies to the preliminary audit findings.

- DOC- an additional \$1M above official request to provide food contract services and \$15K for video communication for detainees to appear for court hearings at the discretion of the Governor".
- "DRT- Additional \$6M to upgrade the financial system to accommodate online capabilities due to pandemic."
- ➤ "GFD Additional \$1.5M for fire trucks at the discretion of the Governor."

Per BBMR Director's response to audit preliminary findings, he stated that they included the amounts over the government entity's official request based on the request and recommendation of the fiscal management team and approval of the Governor. It was further stated that there are government entities such as DRT, DPHSS, GFD, DOC, and GDOE, which received additional funds for certain programs and any unused funds could be identified for reprogramming to assist other program area funding shortfalls.

## Approved Budgeted Expenditures Appeared Questionable in Description and/or Cost

We reviewed the description of the approved budgeted expenditures listed in the Spending Plan and compared these against the guidelines in the Guidance. Based on our comparison of expenditure descriptions, we determined that the descriptions in the Spending Plan appeared eligible, necessary, and reasonable in accordance with the Guidance. However, certain budgeted expenditures appeared questionable based on their descriptions (\$12M), costs (\$877K), or both (\$12.1M), or an overall total of \$25M. See Appendix 6 for details. (Note: The audit of these expenditures will be performed in Part II).

#### **Questionable Description**

Description of certain approved budgeted expenditures appeared questionable as to the nature of the expenses to satisfy the fund's eligibility criteria. Some expenditures did not have description, descriptions are vague and in general terms or cannot be associated with response to mitigate the effect of the pandemic. Some examples include contract for doctors (\$3.5M), credit card fees (\$3.5M), payroll expenses (\$3.1M), one-stop permit office and research office (\$825K) water system upgrade (\$400K), repairs and other expenses (\$654K) or a total of \$12M. See Appendix 6 for details.

#### **Questionable Cost**

Budgeted costs of some approved budgeted expenditures appeared questionable as these were due to the absence of a clear definition of the expenses or breakdown with quantity and unit costs and cost estimates. Some examples are face shields (\$150K), radios for emergency response vehicles (\$120K), air conditioning and filtration system (\$100K), temporary processing centers (\$100K), crisis communication and management plan (\$55K), and others (\$352K) or a total of \$877K. See Appendix 6 for details.

#### **Questionable Description and/or Cost**

Some approved proposed expenditures appeared questionable in both description and/or costs particularly those categorized as *reasonably necessary*. Specifically, these refer to costs to improve record-keeping and online tax filing and financial reporting system (\$12M). Although telework capabilities for public employees to enable compliance with public health precautions could be reasonably necessary, these were without estimated quantity and unit costs. These include laptops and accessories, computers, iPad, smart television sets, Wi-Fi routers, and MiFi devices (\$134K). Approved proposed expenditures appearing both questionable in the description and /or cost totaled \$12.1M. See Appendix 6 for details.

The Director of BBMR, agreeing to the audit preliminary findings, stated that these estimated cost amounts are based on the department's request due to time constraints imposed to formulate a COVID-19 budget. He further stated that although the requested dollar amounts are deemed questionable, all proposed expenditures requested were for COVID-19 related purposes. Furthermore, he stated that these amounts were used for budgeting purposes, were not verified by BBMR, and were used as good faith estimates.

Additionally, according to the BBMR Director, the budget was made at the direction of the fiscal management team based on their input and discussions with the department and agency heads and approved by the Governor who has full discretion on the use of funds. He further stated that the budget approved by the Governor is neither fixed nor inflexible and therefore can be reprogrammed or reallocated at the Governor's discretion.

#### **Other Relevant Compliance and Informational Matters**

#### Monthly COVID-19 Expenditure Report Not Satisfactorily Complied

PL 35-86 required the Governor to submit a report to the Speaker of the Guam Legislature, containing all COVID-19 expenses funded by the local and federal government within 20 days after the close of each calendar month. Additionally, EO 2020-13 provided that the Administration has to provide a report of expenditures for goods and services in response and towards the recovery from the pandemic monthly. The report has to be transmitted to the Legislature and posted to the Office of the Governor's website.

As of July 31, 2020, no such monthly expenditure report for the months from May 2020 to July 2020 has been provided to the Speaker of the Guam Legislature nor posted on the Office of the Governor's website. According to BBMR Director, there has not been any direct monthly expenditure report submitted to the Speaker of the Guam Legislature in compliance with PL 35-86. BBMR, however, stated that the GovGuam Federal Stimulus and Assistance Update for CARES Act and COVID-19 Programs Report as of May 14, 2020 and July 31, 2020 was submitted to the legislature to provide information of the CARES Act and COVID-19 federal grants received by GovGuam.

We noted that the mentioned report generally presented the COVID-19 expenditures *in total on a year to date basis and per agency*. Therefore, the required monthly report was not satisfactorily complied, as these did not reflect the nature of expenses spent. We recommend satisfactory compliance of the COVID-19 monthly-related expenditure report as required per PL 35-86 and EO 2020-13.

In BBMR Director's response to the preliminary audit findings, he stated that in coordination with DOA, they will need to develop a reporting format for compliance. Further, he stated that BBMR intends to comply with the requirement of public law once the format is determined.

#### GovGuam Spent \$34.8M (30%) of \$118M CRF

As of July 31, 2020, GovGuam spent a total of \$34.9M, or 30% of the \$118M CRF. The agencies with the highest expenditures are shown in Table 5 below and Appendix 7 for details per agency.

Department / Agency	Total Total Appropriation Allotmen				 otal ditures	% of Total Appropriation
Department of Public Health &						
Social Services (Public Assistance						
Payments to Individuals)	\$	22.2M	\$	21.8M	\$ 16.3M	73%
Guam Economic Development						
Authority (Small Businesses)	\$	20.1M	\$	15.0M	\$ 9.2M	46%
Office of the Governor	\$	12.8M	\$	12.8M	\$ 3.0M	23%
Guam Fire Department	\$	3.9M	\$	1.8M	\$ 1.3M	33%
Guam Department of Education	\$	1.0M	\$	1.0M	\$ 1.0M	100%
Guam Police Department	\$	1.6M	\$	1.3M	\$ 838.4K	53%

#### Table 5: Agencies with the Highest COVID-19 Expenditures as of July 31, 2020

Department of Corrections	\$ 2.8M	\$ 652.5K	\$ 635.9K	22%
Judiciary	\$ 2.9M	\$ 509.2K	\$ 509.2K	18%
Customs and Quarantine	\$ 605.7K	\$ 343.8K	\$ 405.1K	67%
Guam Behavioral Health and				
Wellness Center (Department of				
Mental Health & Substance Abuse)	\$ 405.4K	\$ 264.1K	\$ 286.2K	71%

#### GovGuam Spent \$661.4M (70%) of \$949.1M of Total Federal Grants Received

As of July 31, 2020, GovGuam received \$949.1M, out of the estimated amount of \$1.63B from the US Treasury and other federal grantors. Total expenditures/encumbrances already paid amounted to \$661.4M, or 70%, leaving an available amount of \$287.7M. We did not review the entire report (except for the US Treasury grant of \$118M) because this is beyond our audit scope. See Appendix 8 for a federal stimulus update as of July 31, 2020.

#### **Subsequent Event Disclosure**

On October 7, 2020, the Department of Administration submitted a CRF expenditure report as of August 31, 2020 to the Guam Legislature. Generally, the report reflected the total COVID-19 expenditures of GovGuam agencies.

On November 5, 2020, as part of their response, BBMR furnished OPA with 923 pages of documents, which provided an update on details and subsequent modifications of budget allocations of approved budgeted expenditures. Due to the volume of documents, these were not attached to Appendix 2 BBMR Management Response and the auditors decided to review relevant and applicable documents in Part II of this audit.

#### **Conclusion and Recommendations**

On March 27, 2020, President Trump signed the CARES Act, US PL 116-136 into law. This provided an estimated Two Trillion Dollar stimulus package to states and territories to address the health and economic impacts of the COVID-19 pandemic. Per GovGuam Federal Stimulus and Assistance Update as of July 31, 2020, GovGuam is expected to receive \$1.6B of which \$661.4M was already spent and encumbered. Of the amount, GovGuam received \$118M directly from the US Treasury, upon which it created GovGuam CARES Act budget (Spending Plan). Of the \$118M, GovGuam spent a total of \$34.9M as of July 31, 2020.

The GovGuam CRF Spending Plan generally followed the policies and procedures provided by the Coronavirus Relief Fund Guidance for State, Territorial, Local and Tribal Governments. However, GovGuam lacked written specific processes and control activities relative to the CRF. The Spending Plan allocation of funds to agencies was generally based on the criteria of eligible expenditures outlined in the Guidance. Although most of the approved budgeted expenditures are eligible and reasonably necessary, certain of these expenditures lacked pertinent information, exceeded agencies' request, and were questionable based on its description and/or cost as reflected in the Spending Plan. Moreover, the required monthly report for all COVID-19 expenditures was not satisfactorily complied with.

We understand that in the short amount of time to spend the CARES Act funds, drafting specific controls and putting them in place in place to ensure appropriate spending may not be of utmost priority. However, due to the substantial amount of taxpayer's money allocated to respond to the COVID-19 pandemic, it is highly important to establish transparency and accountability mechanisms to provide safeguards and reasonable assurance that federal funds are used for the intended purposes, help ensure program integrity, and address fraud risks. Additionally, satisfactory compliance with the mandated monthly COVID-19 expenditures report would assure full transparency and accountability.

We therefore recommend:

- 1. DOA Management to design and implement control activities by adopting written policies and procedures for CRF and other federal assistance, if possible sooner or moving forward.
- 2. DOA and BBMR Management to satisfactorily comply with the monthly reporting requirement for all COVID-19 expenditures.

### **Classification of Monetary Impact**

Finding Description	Questioned Costs	Potential Savings	Unrealized Revenues	Other Financial Impact
GovGuam policies and procedures on CRF Spending Plan generally followed the Guidance				
GovGuam lacked written specific processes and control activities for the CRF	\$ -	\$-	\$-	\$-
Criteria in Spending Plan Fund Allocation to the Agencies Followed the Guidance		-	-	-
Certain approved budget amounts lacked pertinent information	\$ -	\$-	\$-	\$ -
Certain approved budget amounts exceeded agency requests	\$ -	\$ -	\$ -	\$ -
Certain approved budgeted expenditures appeared questionable in description and/or costs	\$ -	\$ -	\$ -	\$ -

### Management Response and OPA Reply

In August 2020, we transmitted our preliminary draft report to the Chief of Staff, BBMR Director, and DOA Director and held a virtual meeting with them in September 2020 to discuss our preliminary findings. BBMR sent their response via email in September 2020.

In October 2020, we transmitted our draft final report and had another virtual meeting with them to discuss our final report. During these meetings, the BBMR Director and DOA Director expressed their justifications and concerns with the audit findings. We incorporated some of their responses into our final report.

In November 2020, we received BBMR Director's response to our final report via direct email to the Public Auditor and provided 923 pages of spreadsheets and documents, which reflected an update on the details and subsequent modifications of allocations on of the approved budgeted expenditures. Considering the volume of documents, which generally supported revisions to the original Spending Plan, we decided to review the relevant and applicable documents in Part II of this audit. See Appendix 2 for BBMR management response.

In November 2020, we also received the DOA Director's formal response. See Appendix 3 for DOA management response.

The legislation creating the Office of Public Accountability requires agencies to prepare a corrective action plan to implement audit recommendations, to document the progress of implementing the recommendation, and to endeavor to complete implementation of the recommendations no later than the beginning of the next fiscal year. We will contact BBMR and DOA to provide the target date and title of the official(s) responsible for implementing the recommendations.

We appreciate the cooperation given to us by the staff and management of BBMR and DOA during this audit.

OFFICE OF PUBLIC ACCOUNTABILITY

Benjamin J.F. Cruz Public Auditor

#### Appendix 1: Objective, Scope, and Methodology

Our audit objectives were to determine whether:

- 1. GovGuam has written policies and procedures, processes, and internal controls pertaining to the receipt, allocation, and disbursements of the CRF; and
- 2. fund allocations to government agencies were based on established criteria and methodology and these were adhered to.

#### Audit Scope

Our audit scope covered COVID -19 related reports from BBMR focused on the \$118M CARES Act Budget (Spending Plan) from March 1, 2020 to July 31, 2020, as well as AS400 System recorded transactions

#### Methodology

Our audit methodology included the following:

- 1) Reviewed pertinent federal laws such as the CARES Act and Guidance specifically the Corona Virus Relief Fund Guidance for State, Territorial, Local and Tribal Governments.
- 2) Reviewed selected Guam Governor's executive orders and memoranda, and other relevant documents pertaining GovGuam's response to the COVID-19 pandemic.
- 3) Reviewed Standards for Internal Control for Federal Governments, selected federal reports relative to COVID-19, and best practices from other federal agencies or audit institutions.
- 4) Identified and reviewed GovGuam wide FY 2019 Compliance Report and Single Audit Report. *There were no findings related to CRF. Internal control findings in regular federal grants will be addressed in Part II on the testing of internal controls.*
- 5) Identified, documented, and reviewed hotline tips or citizen's concerns received by OPA pertaining to federal grants. *Verification of one hotline tip will be performed in Part II.*
- 6) Reviewed the following relevant reports :
  - GovGuam CARES Act budget (Spending Plan) for \$118M.
  - FY2020 Government of Guam Federal Stimulus and Assistance Update for CARES Act and COVID-19 programs as of June 10, 2020 and July 31, 2020.
  - Memo to a Senator of the 35<sup>th</sup> Guam Legislature-Exhibits A & B and supporting documentation.
  - CARES Act Relief Fund Grant (\$118M) AS400Accounts & Funding Levels as of July 31, 2020.
- 7) Inquired with BBMR on the allocation/budget process and process flow of disbursements.
- 8) Inquired with DOA on the process flow of disbursements per DOA's perspectives.
- 9) Made determination if expenditures contained in the Spending Plan are eligible expenses and compared with the Guidance.

We conducted this audit in accordance with the standards for performance audits contained in the Government Auditing Standards, issued by the Comptroller General of the United States of America. These standards require that we plan and perform our audit to obtain sufficient, appropriate evidence to provide a reasonable basis for our findings and conclusions based on our audit objectives. We believe that the evidence obtained provides a reasonable basis for our findings and conclusions based on our audit objectives.

#### Appendix 2: BBMR Management Response

#### Hafa Adai Public Auditor Cruz!

Please find a link to BBMR's responses to the OPA's Draft COVID-19 Fund Disbursement Performance Audit

We are specifically addressing the \$117,968,257.80 received from the Coronavirus Relief Fund as part of the CARES Act federal funding appropriated to address the Coronavirus nationwide.

BBMR **firmly** believes we adhered to our existing policies and procedures, processes and internal controls pertaining to the receipt, allocation and disbursements of the funds.

We also believe we handled fund allocations to government agencies based upon established criteria and that:

-our current policies and procedures guided our work in accounting for the receipt of the COVID-19 funds,

-our current policies and procedures guided our work in creating a draft budget for the use of the COVID-19 funds and that,

-our current policies and procedures guided our work in addressing budget revisions as appropriate and approved by the Governor and by public law relative to the COVID-19 funds.

The link will provide you with a detailed spreadsheet showing the initial budget allocation and any revisions made to date. You will see notes on the rationale for any revisions and BBMR's internal budget modification forms detailing and documenting the revisions to both amounts and the object categories where any revisions were made. This methodology demonstrates our adherence to existing internal controls that guided BBMR in the process to date.

I will remind you and your staff that the performance of this task is NOT complete and while we believe this audit would have been better served being undertaken AFTER the performance period of December 30, 2020, we can understand the pressure your office is under to undertake this audit now as opposed to what rightly should have been addressed after we have run through this fight against the Coronavirus.

It is my greatest desire that your office take into consideration this information and include it into a REVISED report which supports the adherence of internal controls, policies and procedures which will mitigate any concern for fraud, waste or abuse of these discretionary funds made exclusively available to Governor Leon Guerrero.

Thank you and Stay Safe!

Lester L. Carlson, Jr. Director Bureau of Budget and Management Research Office of the Governor P.O. Box 2950 Hagatna, Guam 96932

Mr. Benjamin J.F. Cruz Public Auditor Office of Public Accountability Suite 401 DNA Building 238 Archbishop Flores Street Hagatna, Guam 96910

#### Re: Draft Report - COVID-19 Fund Disbursements

Dear Mr. Cruz:

Department of Administration has reviewed the above noted report and has discussed it with your agency. It was agreed that both DOA and BBMR would forward comments on the draft and DOA's comments are detailed below and in the Attachment. It should be noted that these comments relate solely to funds made available to Guam under the U.S. Treasury program. These funds are generally known as the Coronavirus Relief Fund.

These funds were received from the US Government in April 2020. At the time of their receipt, US Treasury published:

- (a) A certification regarding the use of funds. The Governor signed the certification.
- (b) Guidance for State, Territorial, Local and Tribal Governments.
- (c) Frequently Asked Questions

The Guidance [Notes] and Frequently Asked Questions have been updated and edited several times since their first publication.

Additionally, we have received a Memorandum [June 18, 2020] from the Office of Management and Budget, CRF Reporting Requirements Update from the Department of Treasury and Frequently Asked Questions Related to Reporting and Recordkeeping all of which have undergone more than one revision.

The federal government recognized the devastating effect the Coronavirus pandemic would have on state, territorial, local and tribal governments devised a menu of economic support funding. One of these was the Coronavirus Relief Fund, intended to be used by Governors (for state and territorial governments) at their discretion within general guidelines. As noted above,

<sup>590</sup> South Marine Corps Drive, ITC Building, Suite 224, Tamuning, Guam • P. O. Box 884, Hagàtña, Guam 96932

#### Appendix 3: DOA Management Response

Letter to the Public Auditor Re: Draft Report: COVID-19 Fund Disbursements Page 2

these guidelines have been refined (both narrowed and broadened) since their original publication. These guidelines have been used by the Fiscal Discipline Team to formulate a budget. BBMR whose job is budget formation established a detailed CRF budget and the Governor approved it.

On May 5, 2020, the Governor submitted to the Legislature a budget for the expenditure of CRF funding received. This was a detailed submission containing a budget plan for all such funds received, acknowledging the uncertainty of the severity and duration of the pandemic against a legislated requirement to incur costs against the available funding before December 30, 2020. This important step should be considered not only to be transparent and informative and to have satisfied the budgetary reporting requirements of P.L. 35-86, but also to have more than complied with any administrative standards promulgated by Department of the Interior Inspector General or any other such regulatory compliance units.

The draft report [Executive Summary, page 3] states that GovGuam did not have documented processes and internal control procedures relative to applicable laws, regulations and responsibilities related to the use and disbursement of the COVID-19 pandemic funds. BBMR and DOA have advised OPA that they have closely followed the US Treasury guidelines in managing these funds and GovGuam regular internal control processes and procedures serve well to manage these funds. The draft report omits reference to the Governor's Executive Orders (e.g. Prugraman Salappe, Bereavement Benefit). In the current public health emergency, the Governor's Executive orders carry the weight of the law. These EO's are in the public domain and their applicability to CRF funding payment documentation is both clear and compelling.

The OPA draft report includes a paragraph entitled "Certain Approved Budget Amounts Exceeded Agency's Request". Although not a frequent occurrence, this would not appear to be an improper process. BBMR is responsible for budget formation. It is the lead agency for budget monitoring and control. It has the experience and capability of budget overview and if it believes that submitted numbers need to be addressed it should do without the need for justification. It should be criticized for doing its job.

Approved Proposed Expenditures, Approved Questionable in Description, Cost or Both.

OPA's draft report concludes that certain approved proposed expenditures appeared questionable. No analysis of this is provided in OPA report, but the report does mention: "these also includes[s] telework capabilities for public employees". A review of Department of the Treasury, Office of Inspector General Coronavirus Relief Fund Prime Recipient Renew Procedures, October 26, 2020 (page3) shows that: "(i) Improve Telework Capabilities of Public Employees" is listed as an appropriate expenditure category.

Monthly COVID-19 Expenditure Report not satisfactorily complied.

<sup>590</sup> South Marine Corps Drive, ITC Building, Suite 224, Tamuning, Guam • P. O. Box 884, Hagatña, Guam 96932

#### Appendix 3: DOA Management Response

Letter to the Public Auditor Re: Draft Report: COVID-19 Fund Disbursements Page 3

It is true that reports were not filed before the report for the period ended August 31, 2020. The Department of Treasury reported interim costs through June 30, 2020 in broad categories for Guam and an updated report for this period ended September 30, 2020 was filed. Delays were caused by the need to establish new reporting protocols for this new program. Compliance is now current.

#### Summary

The Public Auditor has indicated that the report, the draft of which DOA has reviewed, was prepared in response to Public Law 35-86. The Governor vetoed Bill 333-35 (COR) and noted in her veto letter that the agreed with the Spirit of Section[s] 7 and 8. She therefore, included provisions in EO 2020-13 to provide reports of <u>expenditures</u> (emphasis added) on a monthly basis. The Administration complied effective August 31, 2020 and this should be so stated in the draft report.

DOA will be happy to discuss this important topic for all of the people of Guam further. This Administration is committed to optimizing the use of all available federal funds during this continuing public health emergency.

Senseramente,

EDWARP M. BIRN Director

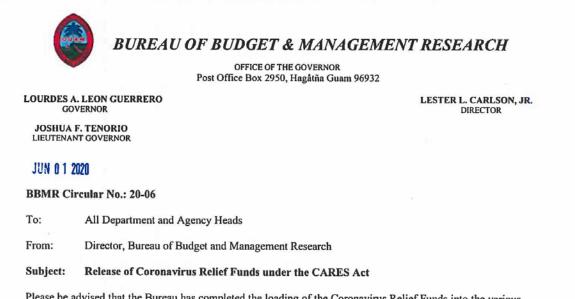

590 South Marine Corps Drive, ITC Building, Suite 224, Tamuning, Guam • P. O. Box 884, Hagàtña, Guam 96932

Droft Domont	
Draft Report	
COVID-19 Fund Disbursemen Performance Audit: March 20	
Comments on Draft audit Repor	t.
Page 3:	
Internal Controls -	Internal control exist for accounting transactions. These CRF funded transactions are subject to these.
Federal Guidance -	Federal guidance and rules have been subject to change since they were first established. BBMR and DOA track these changes.
Discretionary Use -	CRF Funds were designed for discretionary use by Governors in unknown conditions for health pandemic.
Page 7:	
Reasonably Necessary -	This paragraph is taken from US Treasury guidelines and emphasizes the use of "reasonable judgement" by government officials." Reasonable judgement has been used.
Implementation Guidance -	OMB guidance refers to:
	Mission Achievement
	<ul> <li>Expediency</li> <li>Transparency and Accountability</li> </ul>
	All are equally important.
Page 9:	
Table 1 -	The correct CRF total is \$117,968,258.

Office of Public Accountability Attachment A Page 2	
Page 10:	World Health Organization (WHO) and International Monetary Fund comments may issue guidelines on management of their funds. Guam is following US Treasury guidelines.
Page 12:	
Table 4 -	The comment regarding \$3,000,000 is not understood. This has been tabulated as credit card fees.
Page 16:	
Conclusion -	We should prioritize compliance with federal guidelines since the funding is derived from federal services.

#### Appendix 4: BBMR Circular 20-06

Please be advised that the Bureau has completed the loading of the Coronavirus Relief Funds into the various department and agency accounts as delineated per the budget approved by *I Maga'hagan Guåhan*. However, these funds have been placed in Reserve. The Bureau will entertain releases of funds via the submission of a Request for Appropriation/Allotment Modification (BBMR F-12) with justification as well as proper documentation (i.e. quotations; invoices if funds have already been expended) to support said request.

Please be reminded that all purchases should be standardized in terms of costs. As an example, all purchases of laptops must be cleared by the Office of Technology to ensure uniformity of the purchase price and specifications.

Your attention and cooperation to this action is requested and appreciated.

Senseramente,

. CARLSON, JR. LESTER
